

One software package that manages the entire ski resort

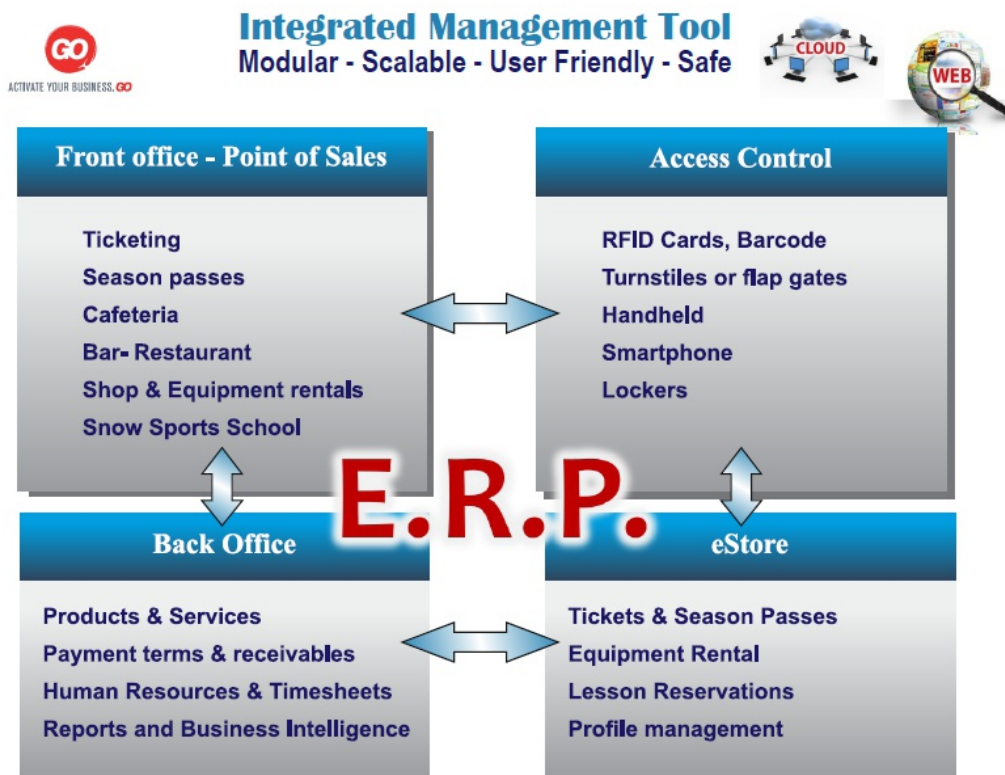

Introduction

If you've been searching for a software solution for your resort, **GO** from **E4soft** is the answer. **GO** is an ERP system:

Enterprise resource planning (ERP) is business process management software that allows an organization to use a system of integrated applications to manage the business and automate many back office functions related to technology, services and human resources.

All of the software modules share a common database. You can start with modules that will resolve your immediate needs, and add more functionality later. From ticketing & season passes to food & beverage table service, E4Soft will support the front-line needs of your resort. Add a business intelligence tool to the existing management reports to analyze your data, or track time & labour for all of your employees. **It's your choice!**

Overview

Ticketing / Seasonal Pass

Produce season passes or tickets with full control of pricing, discounts, coupon redemption or special methods of payment at the counter or from a website.

Retail

At the retail you use the touch screen for the most popular products but also scan the barcode of the other products. Increase productivity and reduce errors by scanning bar codes or using a touch screen.

Cafeteria

The point of sale is optimized to complete a cash transaction in less than four seconds, or a credit card/chip & PIN transaction in less than ten seconds.

Fine dining & restaurant

From order to payment through customer requests (separate bills, shared wine bottle, special cooking, etc..). Be the master of the situation.

Bar

Specific point of sale terminal set up.

Add beverage metric control systems for inventory management of liquor and beer.

Rental

Effectively manage equipment rental and keep track of the equipment status and the inventory.

Snow Sports School

Instructors can manage schedules and availability. Quick registration for individual or group reservations.

Human Resources

Proactive management of all staff including schedules and availability. Payroll time and rate management.

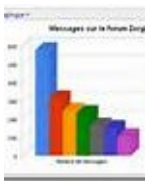

Access Control

Use RFID, magnetic strip or bar code technology to control access to any area or ski lift. Integrated hand reading, finger print or iris-reading technology is also available.

eStore

Integrated eCommerce from a website, PC, tablet or smartphone for tickets, season passes, rentals and lessons.

Reports and analytics

Built in report generator with multiple criteria selections. Optional possibility to extend data analysis to a dashboard using a Business Intelligence tool.

Finance

Full control of available payment methods, and optional financing plans. Easily manage automated recurring payments.
