ACTIVATE YOUR BUSINESS. GO

- The POS has been developed to use touch screen technology in your fast paced environment. Eliminate the Keyboard and mouse in F&B, retail and rental.
- Flexible hardware configurations depending on departmental requirements
- End of day cash out
- User based access & security
- Gather Zip/Postal codes (not mandatory)
- Read seasonal pass to recognize the customer
- Use product barcode to faster transactions

- The payment screen shows you only the payment modes that you need, and use multiple payment types to complete a sale
- Real time reports
- EMV Certified/PCI Compliant in the US & Canada (Chip and Pin)
- Add comments to invoices on the fly
- Optional receipt printing vs screen view
- Accounts receivable management
- Find easily an invoice that must be reimbursed
